

VIRTUAL PET THERAPY

FOR EDUCATORS AND STUDENTS

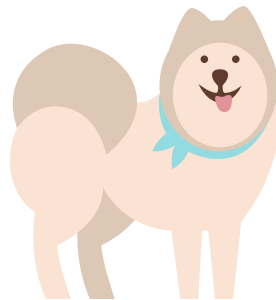

ABOUT US

Creature Comfort Pet Therapy's mission is to enhance people's lives through therapeutic visits with caring volunteers and their pets. Virtual visits are a safe and effective way to provide pet therapy for your students and staff!

READING BUDDIES

Reading to a non-judgmental pet is motivational and fun. It can increase self esteem, confidence levels and communication skills.

ANIMAL WORKSHOPS

Age-appropriate lessons led by Creature Comfort volunteers and their therapy pets to learn about therapy animals.

LEARNING GAMES

Educational games with a therapy pet, such as trivia and Bingo, promote student engagement and team building.

"Your volunteers are so special, and your organization is a really great one. We cannot wait to see you more on Zoom and then again one day in person." Lauren Dick - Universal Institute, Community Enrichment Coordinator
